

Allendale Public Schools
District Office | 10505 Learning Lane | Allendale, MI 49401 | 616-892-5570

ADVISORY TO ALL PARENTS

Dear Parent/Guardian:

Allendale Public Schools has adopted an Integrated Pest Management program. Inherent with this are the District's efforts to reduce pesticide use as much as possible. While it may occasionally be necessary to apply a pesticide, these will only be used as a last resort. This program does not rely on routine pesticide applications to resolve problems. We use various techniques such as habitat alteration, sanitation, mechanical means, exclusion, etc. to prevent pest from becoming a problem.

You will receive advanced notice of the application of a pesticide, other than a bait or gel formulation at your child's school. This advance notice of the application will be given 48 hours before the application. The law requires us to do this notification by using two methods. The first method required by the law is the posting at entrances to your child's school. The second method we are going to use is the posting in a common area located by the main office of the school. Parents are also entitled to receive this notice by first-class United States mail postmarked at least 3 days before the application. If you would like to be notified by mail please contact the Operations Department at the following number 616-892-3480 or mail your information to the above address. Please give the Operations department your name, mailing address and what school your child attends.

In an emergency (for example, bees nest), pesticides may be applied without prior notice, but you will be provided notice following any such application.

You may review our IPM program or pesticide application records for your child's school by calling or emailing Gary Torno the District's Director of Operations 616-892-3480 or email address tornogar@apsfalcons.net. This number or email may also be used when school is not in regular session.

Sincerely,

Gary Torno
Director of Operations
